PREPARED FOR LISA & JENNIFER KEEFE · NOVEMBER 2026

The Keefe Team growth plan.

What's already built, what I need from you, what it unlocks, and the results you should expect. Read it in ten minutes; the asks are on page 5.

The idea is simple: *you two do what you're great at* — clients, horses, community, content — and the back-end work gets done for you.

WHERE WE ARE

What's already built

Everything below is live. None of it needs anything from you to keep running.

LIVE

keefeteamrealty.com

- Custom site built around your story: the trailer, horse country, 4-H, Faith Fridays, Yoshi & Marcus
- Both bios, your three reviews, professional photos, trailer photo
- Horse Property Guide page with all 13 of Lisa's tips (your best SEO asset)
- "Search Homes" links to the HAR IDX site, so lisakeefe.realtor keeps doing its job
- Texas compliance: IABS and Consumer Protection Notice in the footer
- Phone-friendly, fast, secure (https)

LIVE

Lead pipeline

- Every form submission emails Lisa instantly (Josh gets a copy)
- Every lead is also saved in a database so nothing is lost
- Spam filtering built in
- Free-guides page built (Buyer's Guide, Seller's Guide, First Horse): captures name + email, then delivers the PDFs. Goes live the day I get the files.

LIVE

Google plumbing

- Google Analytics: visits, pages, sources, and every lead counted
- Google Search Console: verified, sitemap submitted, homepage already indexed
- Social and text-message previews show the photo of you two
- Domain registered through 2027; www redirects; the code lives in a repository so any change is one push away

PROOF IT WORKS

Fort Worth Fair Offer

Same playbook, built earlier this year for Josh's buying business: site + instant lead alerts + analytics + conversion tracking.

First deal closed from a website lead.

No ad spend. The site, the form, and fast follow-up did it.

THE PLAN

Five phases. One is done.

1 DONE

Foundation

Website, lead pipeline, analytics, search console. The part most agents never finish.

2 NEXT 30 DAYS

Get found in Aledo and Parker County

- **Google Business Profile tune-up.** Website link → keefeteamrealty.com. Correct categories and service areas (Aledo, Willow Park, Hudson Oaks, Weatherford, Annetta, Walsh Ranch, Benbrook, west Fort Worth). 20+ photos. Products/services filled in. Q&A seeded. Keep the name "Lisa Keefe - JLA Realty" for now; it holds your reviews.
- **Review engine.** One text template plus your review link. Goal: 25 Google reviews in 90 days. Reviews are the single biggest factor in showing up on the map.
- **Consistency everywhere.** Same name, phone, and website on HAR, Zillow, Realtor.com, Homes.com, Facebook, Instagram, LinkedIn, email signature. Fix the HAR neighborhoods list and the "Follow me" link.

3 DAYS 30–60

Content engine (Lisa's superpower, automated)

You drop photos and a few lines into a shared Drive folder. Three times a week the folder gets pulled and turned into Google posts, Facebook/Instagram posts, and site content (Horse Property Wednesday is already a series). You approve from your phone; nothing goes out without a yes.

4 DAYS 30–60

Lead handling

- Leads land in BoldTrail automatically, plus a text alert so nobody waits.
- Auto-reply within one minute, every time, with your voice.
- Monthly one-page report: visits, leads, sources, reviews, what to do next.

5 DAYS 60–120

Own the niches

- Investor page for Jennifer ("buying rental property in Parker County"): 20+ flips and 15+ doors is a story no other local agent can tell.
- Horse-property landing page on its own domain (parkercountyhorseproperty.com is available).
- Town pages: Aledo, Willow Park, Weatherford, so you rank for "realtor in ___".
- Monthly email to past clients and sphere. Referrals and church are already your #1 source; this keeps you top of mind.

HOW THE WEEKLY RHYTHM WORKS

Your 20 minutes vs. the back end

You (Lisa & Jennifer)

- Drop photos from showings, closings, the barn, 4-H, community events into the Drive folder
- Add 2–3 lines about each if you want (optional)
- Approve the drafts by text or in a shared doc
- Ask every happy client for a review (one text, we write it)

Done for you (Mon / Wed / Fri)

- Pull the folder
- Write and schedule Google posts, Facebook, Instagram
- Add new photos to the Google profile
- Update the site: new tips, new reviews, sold homes
- Reply to reviews in your voice

Done for you (monthly)

- Analytics + lead report
- Review-count check and nudge list
- Email newsletter draft
- Listing/profile audit (HAR, Zillow, Realtor.com)
- Next-month content ideas from what performed

About the VA

Some of what a VA does by hand (posting, photo uploads, listing updates, review replies, reporting) can be automated or batched. Before we decide anything, we need the list of what he actually does. Page 6 asks for it. The goal is to free his time for things that need a human, or to let you decide if you still need the role.

WHAT TO EXPECT

Targets, not guarantees

Ranking takes reviews, links and time; nobody can honestly promise a date. These are the targets we'll measure against each month.

90 days

Google profile in the top 3 "map pack" for "realtor Aledo TX" and showing for Willow Park / Hudson Oaks searches · 25+ Google reviews · site indexed for horse-property searches · first web leads

6 months

3–6 inbound leads a month from Google + site, before any paid ads · investor and horse-property pages ranking · a past-client email list that produces repeat and referral business on a schedule

THE ASKS

What I need from you, and why

ITEM	WHY	WHAT IT UNLOCKS
The 3 e-book PDFs + new cover photo (Drive folder or a clean re-send)	Email attachments didn't come through	Free-guides page goes live; every download = a captured lead
Google Business Profile: add Josh as a manager	Lets the tune-up and weekly posts happen without you	Phase 2 and the content engine
A shared Google Drive folder called "Keefe Team Content"	One place for photos and notes	3×/week automated posting
Facebook page + Instagram access (add Josh as admin/editor)	Scheduling posts in one tool	Social on autopilot
BoldTrail login or an integration email address	Leads need to land in your CRM	Automatic lead routing
Past-client list (names, phone, email) — even 50 is plenty	Reviews and referrals come from people who already love you	Review push; monthly email
5 past clients you'd text today for a review	Fastest possible win	First 5 reviews this week
Jennifer: bio corrections + license year	Accuracy	Finished About section
Trailer: ramp or barn doors; how long clients keep it	Specifics sell	Finished trailer section
lisakeefe.realtor: finish the HAR home page, or tell me the search URL to link	Visitors land there from "Search Homes"	No dead ends
Your HAR login (or do the edits yourself): neighborhoods, "Follow me" link, website	HAR still shows Houston neighborhoods	Consistent profile across sites
Add keefeteamrealty.com to: Google profile, Facebook, Instagram, email signature, Zillow, Realtor.com	Links are how Google learns the site is real	Faster indexing and ranking

QUESTIONS

Answer these and we'll finish the plan together

Short answers are fine. Send them by email or voice memo.

Your VA

- What does he do each week? List everything, even small stuff.
- What tools does he log into?
- What does he cost per month?
- What does he do that you'd never want automated?

Tools you use today

- CRM: BoldTrail. Anything else (Mailchimp, Canva, a scheduler)?
- Where do your transaction docs live?
- Do you send any regular email or newsletter now?
- What's your business phone setup? Does a missed call get a text back?

Content

- What content do you already make (Horse Property Wednesday, videos, Faith Fridays)?
- Where does it get posted today?
- Would you record a 60-second phone video once a week if the topics were handed to you?
- Any content you don't want public?

Business goals

- How many closings a year would make 2027 a great year?
- Which client type do you want more of: horse property, investors, seniors, relocation, first-time buyers?
- Any budget for ads once the organic base is working? (Zero is a fine answer.)
- Do you want Jennifer to have her own Google profile and pages?

Next step

Send the items on page 5 and the answers above. Within a week of getting them, the Google profile is tuned, the content folder is running, and you'll get the first monthly report. From there it's a 20-minute-a-week job on your side.
